## Company

We have been equally committed to our customers and our employees for more than 75 years. This has decisively shaped our value culture. Our credo: Consistently ensuring top quality and continued product supplies with real customer and employee satisfaction. We are enabling companies to entering markets with their smaller and medium size products, reliably serving patients who need essential medicines. With our project team, you have people at your side who think the decisive step ahead and lead your project safely to success.

## Products and technologies

- Parenteral drugs in various batch sizes
- Aseptic filling and lyophilization
- Analytical Services
- Stability testing including storage
- Clinical supplies up to commercial batches (200L)
- Validation services
- Secondary packaging

## Strengths

We focus on fill finish activities for small to medium size parenteral products including freeze drying for international markets. Flexibility in productions well balanced with robust processes ensure that the right solution for each customer is being defined. We live customer partnership from small to large clients. Project specific project managers care about the product starting from the beginning. Expertise within our team of highly skilled scientists and technical employees ensures that specific customer, as well as product needs are taken care of. Leading to success (of our clients) is our mantra. Fast decision making in combination with structured and highly efficient processes enable us to flexibly react to any planned and unforeseen customer needs.

## Target clients

Companies with small and mid-size products in injection vials who need third parties for filling of products.
