

Wentronic: leading manufacturer of electronic components for the automotive and RV industry

Profile:

Wentronic is a technology driven supplier. We always focus on 100% of customer needs.

As our largest Automotive customer stated:

“Wentronic Solutions stands for high quality products, always giving support on highest level. They are solving problems and not arguing.”

As a leading manufacturer and distributor of consumer electronics accessories, we supply customers at every level of trade both in Germany and across Europe.

Our principle: Every deal is a good deal when both partners are satisfied.

We develop and deliver electronic components/products according to customers' specification.

Our focus is on the Automotive and RV industry.
