Company

merconics is a distributor of very advanced metrology and process equipment; Comprehensive solutions for Hybrid Electronics.

Metrology:

Bruker: AFM, Whitelight interferometer, X-Ray (XRD, XRR, XRF, XRI, XRDl)
Nextin: Brightfield/Darkfield Defect Inspection
ONTO: Overlay/CD-metrology

Cleanroom Monitoring

Syft: AMC cleanroom contamination monitoring

Process equipment

Veeco: ALD, evaporation, IBE, MOCVD
Revasum: Grinding, CMP

FOUP cleaner

Hugle

e-Printing / Soldering

CeraDrop; Novacentrix, Optomec; Pulseforge, XTPL

Strengths

Broad portfolio (Metrology, Process, Infrastructure) for the Frontend Semiconductor Manufacturers. Team with cumulatively 100+ years of Semiconductor Experience.

Products for the UK Market

Metrology (Bruker)
AMC (Syft)

Target clients

Semiconductor Fabs; Compound semiconductor; MEMS.

Trade Horizons
GLOBAL BUSINESS GROWTH
